Hares, please email your run details to the On Sec for listing in the trash.

The first road to cross old Edmonston st was a hairy experience with some walkers wanting not to return to there dinner table feed.

It was said the runners were on a wild goose chase and didn't hear the directions across the park, waiting at the drink stop they were a no show to.

Growler speeded up to a fernetic pace we were sure to out walk a wondering bun grab.

Birthdays were had radar and tail, there was tall talk about sheep and 64.

Growler was visiting with his beer and brewery talk about the 6th July, there will be no trump needed as enough idiots will attend.

Charges were had, Kama Sutra was charged for not letting chupa chup in on the hash notes required the week before your walk, Kama Sutra boosted about her drinking arm skills.

Something about showing the women how its done...

Lilo was charged with flashing on the weekend gone with a lot of lumpy talk.

The talk was that reverse charges should apply.

Horse was working on his dick and slipped and fell on his dick.

There were some twinzies two lips and high time.

Robinson cruiso was a bimbo for a night

Posthumous charge goes to growler for being on the phone during the circle.

Has anyone seen that guy since he parked in a one way dead end street with his camper.

He may need a hand.

By Darren (yet to be responsible for a name)
